ck is 19 years old. Hi is a bright, active lad. Until he took to the hold-up trade, he was a drug clerk, and he lived with his family at 527 West Forty-fourth street. His father is Joseph Sandrock, ctable man, a sign painter, working for O. J. Gude & Co. The boy's development into a criminal seems to have started with reading socialistic literature and frequenting socialistic clubs. The police say that he developed wrong headed notions about property rights, and these became the inspiration of his robberies. A few weeks ago he threw up the steady job he held at Miller Bros.' drug store at Tenth avenue and Forty-eighth street. Since then, the series of front door hold-ups, which have worried police and public so much, has been in progress.

Sandrock, after having sleuths on his trail for a week, was caught on Friday night in Pop Lindsey's poolroom, a resort for negroes, at 12 Lawrence street, in Harlem. Yesterday forenoon there was a congress at Police Headquarters of six of his victims, together with the pawnshop clerk with whom he pawned Frederick Heighe's watch on the night of the Delta Phi clubhouse robbery, Jan. 24. The vic-tims who gathered at Police Headquarters to identify Sandrock were Frederick Heighe, E. L. Shipman, Miss Eva Shipman, Dr. R. B. Talbot, Brewer Woerz, William Webb, butler in the house of Ebenezer Hurd, 19 West Eighty-sixth street, and Charles Brown, the butler of the Delta Phi Club.

Sandrock was lined up with six other men, all of whom were bareheaded at first, with a view to making the identification as difficult as possible, because the robber in all his exploits were a slouch hat pulled low down on his forehead. Mr. Shipman and Miss Shipman picked out Sandrock without an instant's hesitation.

"He wore no mask when he came to our house," said Miss Shipman, "and I knew him the instant I saw him. There is not the slightest doubt that he is the man." Webb, the colored butler of Mr. Hurd,

jumped at Sandrock and pulled him out of the line at the first glance. "That's him," said Webb. "I'd know him

Brewer Woerz also refused to positively identify Sandrock. He said he had been confused by trying to identify people the police have brought to him. "Our men got trace of him," said Inspector O'Brien yesterday, "and watched for him until they caught him. He had been talking a good deal to the negroes with whom he associated up in Harlem. He told two of them, who are witnesses against him, about the Woerz robbery and several others and showed them what the newspapers had about the cases. ONE HOCH WIFE POISONED.

Alleged Bigamist Likely to Be Held for Murder-Two More Wives Found.

CHICAGO, Feb. 4 .- Mrs. Marie Welker-Hoch died from arsenical poisoning. Coroner Hoffman made this announcement today after a long talk with Dr. Lewke, who, with Dr. Robert Zeit of the Northwestern University, has completed the chemical and microscopic investigation of the stomach and other organs taken from the body of Mrs. Hoch, which was exhumed at Oakwoods two weeks ago. Coroner Hoffman gave out this statement at noon:

"Dr. Lewke and Dr. Zeit and others have found a sufficient amount of arsenic in the stomach of the woman to cause death Dr. Joseph Reese, who attended her, says he gave no arsenic in his medicine. The chemical analysis of the embalming fluid and the instruments used and all other fluids which the undertaker had in his possession disloses no arsenic whatsoever."

He said: "I will have this evidence written up and presented to the Coroner's jury at the inquest next Tuesday and I believe some one will be held. I am of the pinion that that person will be the husband of the woman. If he is the man under arrest in New York he is the guilty person. There is no question in my mind that Mrs. Hoch was killed by slow poison."

Another instance of a double "flying" marriage contracted by Hoch was brought to light to-day in letters received by the police. From these letters two more wives have been discovered. Marrying Miss Ada Dodd under the name of Cable in Dayton, Ohio, in the early part of October, Hoch deserted her, it is said, in time to marry Miss Regina Miller, a young school teacher of Collinwood, Ohio, on Nov. 17 under the

name of J. M. Curtis.

"Mrs. Cable" married Hoch in Cleveland and gave him \$800. Shortly afterward he disappeared. She is now thought to be on her way to Chicago to identify Hoch when he reaches here from New York.

when THE SUN man who had interviewed Wood called up to say where the suspect was to be found. The reporter knew that Detective Sergeants Cooney and O'Rourke of Mulberry Street were cooling their heels in the coldest part of Harlem, waiting for Wood to come home (surely he must come home sometime) and thought to end their vigil. The courtesy wasn't exactly ap-

Said Barrett: "That's a matter which doesn't concern me or my men until we receive orders to act, and we have no instructions in this case. I certainly don't intend to concern myself in the affair under the circumstances.

At 9 o'clock THE SUN called Police Headquarters again and asked leave to communicate with the West Twentieth street station. According to the regulations this request was refused. The man at the telephone bureau said that the Detective Bureau was the place to receive information. Capt. McNally was in charge of Headquarters and in spite of the suggestions of the police telephone operator he agreed to hear the story. McNally allowed connection to be made with the West Twentieth street station. The man there insisted on taking down the whole message in writing and then said: "Now, what do you want us to do, inves-

He was informed that THE SUN was merely suggesting that the police get the man New Jersey wanted for murder.

All hands appealed to the reporter for suggestions, and he, despairing of a call from the police, remarked that the Yorkville police court with begging. Wood could give himself up. This appealed to Wood, but he insisted that the newspaper man should go with him "to do the talking."

So the party walked to the West Twentieth street station and the story was told by the pair on Second avenue shortly before to the sergeant at the desk, who called up by the pair on Second avenue shortly before midnight Friday night. YOUNG WOOD SURELY THE MAN reporter started to tell him. Barrett broke in with:

"What interest have you in this case?" Only a passing interest, it was explained; but Barrett wasn't appeased.

"Good Gawd," said he, "what can we do? We haven't any orders in the case (Cooney and O'Rourke still in Darkest Harlem, with the mercury falling.) "Go on with your cock and bull story. Are ou the complainant?"

Barrett graciously consented to the recital. Then he began to question Wood about his satchel, hat and mustache. Wood said he shaved his lip on Monday. Barrett and another detective rubbed said lip and decided that the shaving had been of more recent date. They warmed to the task. They called Chief Kiely at Plainfield.

"Are you looking for a man named George H. Wood?" asked Barrett. "We have a man here who says you are looking for him, and he wants to give himself up. Describe him."

Chief Kiely told Barrett what Wood looked like and urged him to hang on to him, Barrett hung up the receiver and looked peevish. "Put him under arrest," he said to a

ROBBERY TAKEN TO BE THE MOTIVE. PLAINFIELD, N. J., Feb. 4.-When it was reported through the countryside to-day that Wood says his mind has been blank nearly all the time since last Monday those who knew him in his boyhood declare it is simply a trick and that his movements show clearly that he knew what he was doing. "You're not under arrest," said the desk sergeant to Wood, "but you must go to "The only way to do it was to kill him,"

"In his statement to the New York police Wood said he did not remember being in Plainfield at all, yet this morning he told me another story. The man who drove away with Williams wore a brown fedora hat; so did Wood when he left Blinn's Hotel. The man who was seen hurrying to Millington after the murder tallied with the description of Williams's passenger in every way except that he wore a cap.

"I asked him where he got it and he said he had bought it in Plainfield. The natural inference is that he carried the cap with him when he left Plainfield on Thursday morning and discarded his fedora after the murder. That is why I say he began the trip to the Pollack place with some devitry in his heart."

All the money Williams had had with him was found in his pocket after the murder. "In his statement to the New York police

killing or having in possession deer out of season, the conductor of a train on the Ellenville and Kingston Railroad was yesterday compelled to leave a handsome buck which was disabled by coming into collision with the engine. The deer was seen by the engineer on the track as the train rounded a curve. The lever was reversed and the air brakes put on, but the distance was too short to stop the train and the locomotive struck the deer with force enough to hurl it high into the air. The passengers left the train and crowded around the animal, which was unable to killing or having in possession deer out The passengers left the train and crowded around the animal, which was unable to move on account of a broken leg and other injuries. The conductor was reluctantly compelled to leave the suffering animal where it lay in the snow, as he could not legally kill it or take it aboard the train. Accordingly he signalled the engineer to go ahead and left the poor creature to its fate. Some of the passengers left the train at Accord with the avowed intention of risking a heavy fine by killing the animal. WON'T INSURE IN ARKANSAS.
